

SATC 12149

COPY 103 2

December 21, 1956

George:

As you have known for some time past, I have undertaken additional duties at Perkin-Elmer as Manager of our Engineering and Optical Division. While my interest and availability still remains on our project, I must depend more and more upon others within my Division for the performance of work. To this end, I have made [redacted] project engineer for all Perkin-Elmer aspects of the project and he thus directs all Perkin-Elmer technical activity.

25X1

You are already familiar with Tom's activities. I have asked him to continue along these lines but with less and less emphasis on the technical matters which I have now asked [redacted] to undertake. Thus, both men will be familiar with all aspects of this activity but with Don specializing in the technical aspects and Tom in matters of contract administration.

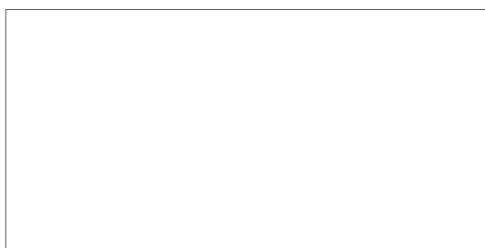

25X1

In the interests of efficient performance of work, I would like to suggest that you avail yourself of these individual specialties to your best advantage. I am informing [redacted] of this distribution of responsibility in our group, and trust that they will also avail themselves of Don's services. Don has had a Phase I and Phase II clearance since June 1956, and may be reached on a sterile telephone in Norwalk, Connecticut at VOlunteer 6-5116.

25X1

25X1

Best regards.

Rod
